Adventurer's Reference

Tests

When you attempt something uncertain, the Grand Poohbah will ask you to make a Test. Roll 2d6, add the stat they tell you, and compare the result to this table.

Roll	Description
Natural 2	Bad Things Happen
6-	Failure
7–9	Success at a Cost
10+	Success
Natural 12	Critical Success

Advantage, Disadvantage, Inspiration, and Help

Some abilities and circumstances grant advantage or disadvantage.

- **Advantage**. Roll 3d6, keep best two.
- **Disadvantage.** Roll 3d6, keep worst two
- **Inspiration.** Choose a future test to roll at advantage. Inspiration expires when you Make Camp.
- **Help.** If an ally aids you with a test, roll at advantage.

Called Shots

Sometimes, you may want to use an attack to accomplish something beyond dealing damage. In such cases, ask to make a Called Shot. The Grand Poohbah will ask for a test. On failure, your attack misses. Called shots cannot usually be combined with other abilities.

Informal Magic

Mages may wish to use magic that is not in their spellbook. Sometimes, this is impossible, but for simple spells the Grand Poohbah will ask you to make a Test of Intelligence.

Exhaustion

If you push yourself too hard or are affected by certain abilities, you may become exhausted.

- **Exhaustion 1.** -1 on tests, -2 inventory slots.
- **Exhaustion 2.** -2 on tests, -4 inventory slots.
- **Exhaustion 3.** Fall unconscious. If you do not Make Camp within 24 hours, you die.

Rest

When you are exhausted or need to restore Action Points or Health, you can rest.

Type	Take a Breather	Make Camp	Desperate Recovery
Time Required	1 Dungeon Turn	8 hours	1 Dungeon Turn
Health Restored	0	2d4/tier or -1 Exhaustion	2d6/tier +1 Exhaustion
AP Restored	2	5	2
Luck Restored	0	1	0
Times / Day	1	1	2
Rations	0	1	0

Time

Time is broken into the following categories.

Unit	Period	Use
Round	1 Minute	Combat and fast-paced Action
Dungeon Turn	Roughly 10 minutes	Exploration and Dungeon Procedures
Watch	Roughly 4 hours	Wilderness travel, camp, and rest.

Travel

When traveling, speed is based on terrain type:

- **Easy Terrain.** 3 hexes per day
- **Difficult Terrain.** 2 hexes per day.
- **Severe Terrain.** 1 hex per day.
- **Travel by mount.** +1 hex per day.

When traveling across multiple terrain types, the harshest sets precedence.

Pack Animals

Pack animals have 5 inventory slots. Carts and wagons have 20. An adventuring party may command at most one cart or wagon at a time. Severe terrain is impassible to carts and wagons.

Making Camp

After travel, you may choose one of the following actions. Roll 2d6 + helpers.

Hunt

- **2**. Complication
- **6-**. Nothing edible found.
- **7-9**. Gain 1 ration +1 per helper.
- **10+**. Gain 2 rations +1 per helper.
- **12**. Gain 2 rations and a valuable find.

Scout

- **2**. Complication
- **6-**. Nothing noteworthy.
- **7-9**. Learn features of 1 neighboring hex.
- **10+**. Learn features of 2 neighboring hexes.
- **12**. As above, plus gain a rumor about a nearby Point of Interest.

Make Camp

- **2**. Complication
- **6-**. A safe camp suitable for rest.
- **7-9**. One camp benefit.
- **10+**. Two camp benefits
- **12**. Three camp benefits.

Camp Benefits

- **Fortify.** Prepare defense against attack.
- **Prepare a Meal.** The party restores 2d6 health per tier rather than 2d4 from rest.
- **Set a Perimeter.** Gain advantage on checks made to detect night encounters.

Setting Watch

Strange things creep in the dark. Each night, there are two watches. If something occurs in the night, the Grand Poohbah will ask one of the adventurers on watch to make a Test modified by the number of watchers.

Combat Actions

On your turn in combat, you may make an Action, Offhand Action, and move.

Common Actions

- **Make an Attack or Called Shot.**
- **Use an Ability or Make a Test.**
- **Help.** Grant an ally help on their next action.
- **Administer a Consumable Item.**

Common Offhand Actions

- **Dash.** Move 15ft extra.

Common Reactions

- **Exposed Attack.** When an enemy leaves arms reach, you may attack them. If they leave the range of multiple enemies with 5ft of movement, one may attack at advantage.

Death's Door

When you fall to 0 HP, you are on Death's Door. Make a death coin flip at the beginning of each turns in combat, or once every 3 Dungeon Turns out of combat. On failure, you die. On success, take one action from the following list:

- **Crawl.** Drag yourself up to 15ft.
- **Last Strike.** Make a Called Shot at disadvantage. Take one exhaustion.
- **Aid.** Help an adjacent ally with a Test.
- **Call for Help.** Grant one ally an additional 15ft of movement on their next turn, so long as they move toward you.
- **Grapple.** If you are adjacent to a foe of reasonably small size, halt or hinder their movement for this turn and give them disadvantage on their next ranged attack.
